CBT APRIL ALL SUBJECTS QUESTION PAPER 2025-2026

ENGLISH QUESTION PAPER

Passage
The Indian peafowl, also known as the blue peafowl, is a large and colorful bird. It has a distinctive call that sounds like "may-awe". The peacock, the male bird, has bright blue and green feathers on its body. It also has a long, beautiful tail with eyes-like patterns. The peahen, the female bird, is duller in color and has no tail.

The peafowl lives in forests and grasslands. It eats seeds, grains, and insects. The peafowl is also known for its dancing skills. The peacock spreads its colorful tail and dances to attract the peahen. This dance is a beautiful sight to see.

CASE BASED QUESTION
Water is essential for our survival. We need water to drink, to grow crops, and to keep our environment clean. However, water is a limited resource, and we must conserve it to ensure that it is available for future generations.There are many ways to conserve water. One way is to fix leaky taps and pipes. Rainwater harvesting is the process of collecting and storing rainwater for future use. We can use rainwater to water our plants, wash our clothes, and even drink it after proper treatment. We can also use drought-resistant plants in our gardens to reduce water consumption.Finally, we can educate others about the importance of water conservation.

31. Why is it important to conserve water?
a) Because water is abundant and we can waste it
b) Because water is a limited resource and we must ensure its availability for future generations
c) Because water conservation is a hobby
d) Because water conservation is a waste of time

Correct Answer: b) Because water is a limited resource and we must ensure its availability for future generations.
Explanation
The correct answer is "Because water is a limited resource and we must ensure its availability for future generations". Water conservation is essential to ensure that water is available for future generations.
